

Solving Chaos Through Innovation

# Smart Access. Safer Living.

## Remove Lockboxes with Noki

Noki Exchange offers a secure, centralized key exchange system with full user tracking—ensuring resident safety while freeing your concierge to focus on delivering exceptional service.

## The Benefits

### Heavy Duty Protection

Built tough with a modern look that complements any building interior.

### Real-Time Tracking

Monitor every entry and exit with detailed user logs.

### Management Portal

Easily view reports in your inbox daily, weekly or monthly.

### Reliable Local Support

24/7 monitoring ensures rapid real-time support via phone, email and on-site.

## How It Works?

Users book a compartment through our mobile app and can grant others access for specific dates and times. Authorized users receive a secure passcode to open the compartment and return the key.

Solving Chaos Through Innovation

# Smart Lockers. Happier Residents.

## Eliminate Clutter and Theft with Parcel Lockers

Noki Express offers a secure, self-serve solution for package deliveries and pickups—ensuring **95% same-day pickups** with instant notifications, while freeing concierge to focus on other important tasks.

## The Benefits

### Made in Canada

Commercial-Grade quality with 18 options of textured or smooth finishes.

### Delivery Tracking

Logs delivery & pickup in real time. Instant notifications sent to residents.

### Management Portal

Easily manage compartments, residents and view historical usage.

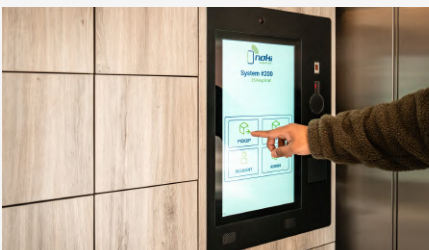

### Smart Features

Pickup camera, mobile app and fingerprint access for secure operations.

## How It Works?

Couriers deliver packages directly into secure compartments. Residents receive a pickup code to retrieve their deliveries.
